

Coverage for OTC COVID-19 Diagnostic Testing Kits

Effective January 15, 2022, and for the duration of the public health emergency (PHE), Sav-Rx is proud to support your health plan in providing coverage for OTC, at-home, diagnostic COVID-19 tests that have been authorized, cleared, or approved by the Food and Drug Administration (FDA).

Listed below are answers to some frequently asked questions.

▶ How much do the OTC COVID-19 tests cost?

Pharmacy claims for FDA authorized, cleared, or approved OTC COVID-19 tests at \$0 for members who utilize an in-network pharmacy. Tests purchased at out-of-network locations will be reimbursed up to \$12 per test.

▶ Do I need a prescription to receive an OTC COVID-19 test?

No, you do not need a provider order or individualized clinical assessment to obtain an OTC COVID-19 test.

▶ How many OTC COVID-19 tests can I buy?

The Plan will be providing coverage for 8 OTC COVID-19 tests per 30-day period per member without cost-sharing requirements (including deductibles, copayments, and coinsurance), prior authorization, or other medical management requirements.

▶ How do I pay for my OTC COVID-19 test(s)?

Members should check-out at the pharmacy counter with their pharmacy benefit (prescription) ID card.

▶ What should I do if the pharmacy cannot process the OTC COVID-19 test to my prescription card?

There are some instances when you will not be able to utilize your pharmacy benefit (prescription) ID card to purchase medications at the point of sale. For example, some pharmacies are still adjusting their payment systems to the new OTC COVID-19 test coverage requirement, and out-of-network pharmacies will not be able to process your prescription ID card. In these circumstances, you will need to pay out-of-pocket at the point of sale and then submit a reimbursement to Sav-Rx.

▶ How do I submit a claim for an OTC COVID-19 test for reimbursement?

You can fill out a form for reimbursement online at <https://www.savrx.com/?Link=CovidForm>. To download the form, type the group number listed on your pharmacy card into the space provided on the website. Then click the button "Get Form." The steps to submit the form are listed on reimbursement form.

▶ I purchased a COVID-19 test prior to January 15, 2022. Can I still be reimbursed?

The Plan will only provide reimbursement to members who purchased OTC COVID-19 tests on or after January 15, 2022. No retrospective reimbursement will be provided to members if tests are purchased prior to January 15, 2022.

▶ How do I find in-network pharmacies?

To find in-network pharmacies near you, go to <https://www.savrx.com/?Link=locations>. Once there, type in the group number listed on your prescription ID card and the Zip Code where you are located. A list of nearby pharmacies will appear.
